TO WHOM IT MAY CONCERN

This letter of reference is submitted on behalf of IntelesysOne, Inc. I have had the pleasure of working with IntelesysOne on enterprise-wide telecommunications projects for multiple healthcare facilities throughout California.

The support provided by IntelesysOne range from the following:

- 1) Surveying and sizing prospective phone systems
- 2) Arranging the purchase and financing of five (5) phone systems within the past year
- 3) System design and project management support
- 4) On-site user training of new phone systems
- 5) Integration and technical support
- 6) On-going service needs (24 x 7 x 365)

In the business of healthcare, it is a priority to minimize any service impact to our staff and patients. IntelesysOne was sensitive to the patients, staff and guests in our facilities and worked in a manner that was professional, yet non-intrusive.

The professionalism shown by the technicians, project managers, supervisors and sales staff is impeccable. The employees routinely went the extra mile to insure we were satisfied in every way with their products and services. Care and attention to detail, was also another asset that this company brought to the table.

I am delighted to recommend IntelesysOne as a vendor of choice, who will deliver the highest standards of performance and customer satisfaction.

Sincerely,

Mary B/Smith
Director of Telecommunications
